4. Using clear glue, attach the two smaller pom poms near the other end of the paper tube to make the dragon's nose.

5. For the fire, cut scraps of red, yellow and orange tissue paper to be long pointy strips, about 20cm long

6. Spread some glue from a glue stick onto the straight end of one of the strips of tissue paper, then attach it to the inside of the paper roll under the dragon's nose. Repeat, and keep gluing tissue paper to the inside of the paper roll as you work your way around the roll.
Only glue tissue paper as shown in the photo. Don't glue tissue paper all the way around the bottom of the roll (under the nose). Gravity will pull down any tissue paper there and it won't move when you blow in the paper roll.

Your Dragon is now complete take a breathe and blow his fire!
