JANE GOODALL

SYNOPSIS

When Jane was little, her father gave her a toy chimpanzee named Jubilee. This inspired her lifelong love of animals, and she went to study them in the wild as soon as she could. Jane lived with chimpanzees in their natural habitat and became famous for her pioneering approach to research. She now educates the public on animal rights.

LESSON'S AND OBJECTIVES

This book introduces the life story of someone who is passionate about nature and the beauties of our world. You can use it to talk to the children about the importance of nature appreciation and preservation.

MATERIALS NEEDED:

- White Glue
- Beans
- Paint brushes
- Pencils
- Cardboard
- Paint
- Water Bottles
- Paper Doll Print out
- Scissors
- Pencil Crayons
- Ice cream stick
- Tape
- Brown pipe cleaners
- Wooden beads
- Googly eyes
- Clear glue
- Brown felt
- Brown acrylic paint
- Yellow pipe cleaners
- Paintbrushes
- Water Bottles

DISCUSSION QUESTIONS:

1. What started Jane's love for chimpanzee's?
2. Why didn't Jane just go study animals at University first? What did she do instead?
3. Where did she go to study animals? What was the first study she was involved in?
4. How did she become part of the first chimpanzees family? What were some of the names she gave them?
5. What did she notice when she studied them?
6. What do you think being a wildlife defender means? Is this important?

ACTIVITIES:

1. Vocab - Hangman
2. Gorilla Picture
3. Jane Paper Doll's
4. Monkey Pencil holder

GORILLA PICTURE

LESSON FOCUS

Today the children will make a beautiful portrait of a gorilla. They need to neatly stack the beans close together so this will take patience. If they don't finish they can finish next time.

MATERIALS NEEDED

- White Glue
- Beans
- Paint brushes
- Pencils
- Cardboard
- Paint
- Water Bottles

Activity 1: Bean Gorilla Craft

Step 1:

The children will first need to draw the basic shape of the gorilla on their card.

Step 2:
Start by applying a thin layer of glue over the inside of the drawing, sticking to one place at a time.We started with the eyes, then mouth, then nose.

Step 3:
We then paint the beans.You don't have to be too tidy around the edges of the beans, because these will be covered with more beans later. Let paint dry.

Step 4:
Next go onto the next space. We did the face packing the beans tight as you go. Painting them when you finish.

Step 5:
Repeat this process until the entire cardboard is covered. Packing the beans tight as you go.
Painting them when you finish.

JANE PAPER DOLL

LESSON FOCUS

Today the children will make a Jane paper doll. They should colour in her clothes and then they can dress her.

MATERIALS NEEDED

- Print out
- Scissors
- Pencil Crayons
- Ice-cream stick
- Tape

Activity 1: Jane Paper Doll

Colour in the paper doll and then you can cut it out. Stick the ice-cream stick on the back of Jane. If they finish early let the children use her as a puppet to do their best nature conservation speech.

MONKEY PENCIL HOLDERS

LESSON FOCUS

Today the children will make monkey pencil holders to remind them of Jane Goodall and the importance of nature conservation.

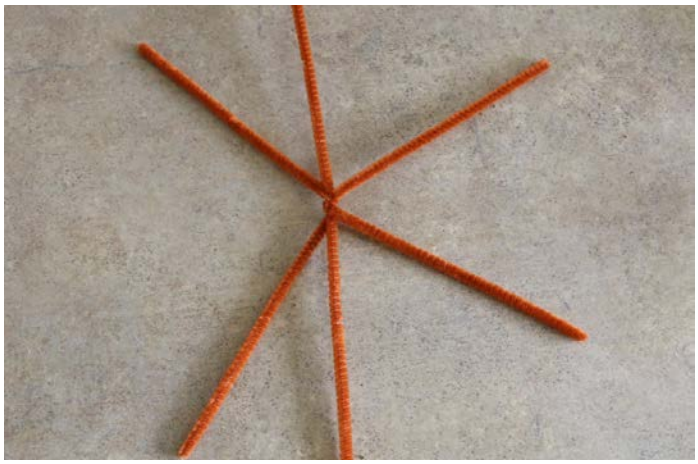
MATERIALS NEEDED

- Brown pipe cleaners
- Wooden beads
- Googly eyes
- Clear glue
- Brown felt
- Brown acrylic paint
- Yellow pipe cleaners
- Paintbrushes
- Water Bottles

Making a Monkey

The larger beads are for the head. The smaller beads make the bodies of our monkeys. We painted them brown.

Start with 3 pipe cleaners, and twist them together as shown. The top three strands will be for the head and arms. The bottom three will make the legs and tail.



Slide the body bead onto all three lower strands.

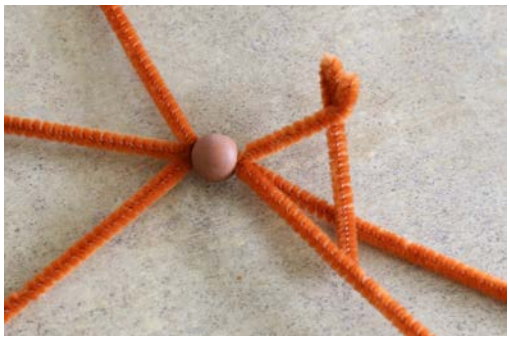
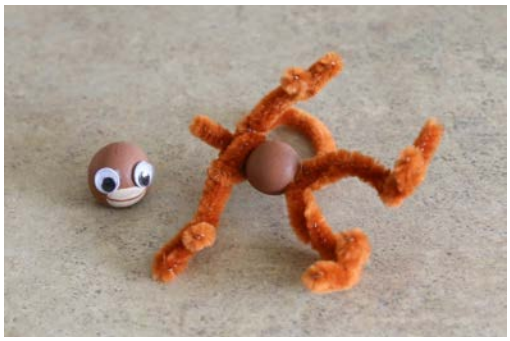
Then start bending the pipe cleaner legs to make feet.



The legs look best if they have a double layer of pipe cleaner. So form the feet, and then bend the excess upward. I either tucked the end into the body bead, or wrapped it around the monkey's "waist" (below the bead). Just do whatever works.
Then bend the arms.

Cut the head strand so that you have just enough left to fold over to be a neck.



Attach the head with a little clear glue. Then cut tiny rounded ears out of felt. Glue those to the sides of the head. Ta-da! Isn't he cute? We used a short piece of a yellow pipe cleaner to make a banana. The monkey's hands are posable, and he can hold things.
